JEWELRY HAUL WOO SOCIETY IN SAY CARLTON STRIKE TO SAVE  
WORTH\$35,000 SCOTCH CASTLE IS A POISONER UNION BUTTON**

Chicago Employers Will Not  
Take Back Men Who Wear  
the Badges.

CHICAGO, July 28.—Thirty thousand drivers in Chicago may be ordered to strike in a desperate effort to preserve the union button. The Teamsters' Joint Council will hear demands for a general strike to check possible demoralization of the organization.

Labor leaders admit that disintegration of the union is the fear.

The strike spirit was increased when the "Miners' Association" followed up its victory by enforcing a new rule not to re-engage any more of the employees who struck until the two local unions composed of draymen and coal wagon drivers returned to work. The Joliet Council has power under the constitution to recommend a strike and President Shea, the general head of the union, has the right to call a strike.

"There is agitation in many quarters for such a move, and the teamsters' chief, 'It is up to the committee to decide what is to be done. I cannot make any prediction."

"The employers are trying to rub it in beyond all toleration," continued Shulz. "They will try to take advantage of the situation. This means breaking up of all unions."

J. V. Farrell, Jr., chairman of the Association's Action Committee, added: "We will not let the employers take advantage of the union men, even those who forget their own interests and are willing to sacrifice all of the unions that struck have decided to end the struggle."

# TRAM ROBBERY

RICHENBACH, N. Y., July 26.—A holdup of one of the New York Central express trains was probably frustrated here early to-day.

The local agent received word from Albany to-day at the station when the American Express train passed through at 12:30, as there were several men aboard, and fears were entertained that robbery was intended. The train carries no passengers.

A stop signal was set and several officers located the train. The stopping of the train gave the intruders a flip that indicated they were going their way, and in an instant a dozen men were seen jumping from the train.

The train into the darkness.  
The officers fired several shots after the  
deafening gun, but all escaped.

## DON'T BE A DISHONEST BRIDE

*By Dorothy Dix*

Of course, if those who have the money choose to hire a hall and make a holy show of themselves, it is their own affair. The chief advantage the money gives is the privilege of doing fool things. With the rich it is a matter of taste—or lack of taste—but with poor people it is a piece of criminal idiocy for which there can be no excuse. Yet they are continually guilty of it. The first coherent plan that a girl has

**Many a Bride Goes to the Altar Burdened With Debts She Can Never Pay**

Every form is about her wedding, and how many bridesmaids she will have, and what color they shall wear—pink or blue, and when the time comes to put this dream of her life into execution she is simply incapable of considering the expediency, necessity, propriety, or even common honesty.

I have seen a poor girl being united in holy matrimony with a man who had no money left, who had spent every cent she could rake and scrape for on white satin dress with a trail two yards long.

**Girls Are Foolish**

SHE didn't have a single wardrobe serviceable dress in her wardrobe. She knew that she would not get on the hotel gown more than three or four times, and that she was

her to have trunks full of French lingerie and imported gowns that she was in debt for, or that her poor old father would have to toil and pinch and economize to pay for.

And this view of the subject is earnestly commended to all poor girls who are going to be married.

A. Bradshaw.

He lived a lonely bachelor existence, without friends, without interests. He had a small house near Boston, but it was nothing more to him than a place to sleep in and a private fire in which to warm his housekeeper's wife and his two paid servants. Even less, so far as he was concerned, he had no relatives for whom he ever cared.

lional temperament with great reverence for the Universalist Church, a priest of the Episcopal Church. If such a thing is allowable, I would like to see you, and I can go to college, and be that you will instruct me in the same, and the length of time it will take to do so. I am very anxious to conceive of an infirmer calling a good minister, and feel that you agree with me that my ambition you might get some encouragement from the Universalist Church. These religious bodies have a great deal of devotion, and I am a talker. However, may I remind you that Samuel Johnson once said a priest is a man who has no religion, and his blind legs.

I am very much interested in the college for women, but there are a few of them in and around Boston, they may be found in a directory.

hastened to exclaim, "I think, perhaps," said Braine, "that I could see your daughter if it would be easier."

"What, Mary? Why, certainly."

"You see, it is in connection with some business I once discussed with her and your husband. Probably they have not troubled you in the matter."

Elizabeth Armstrong looked puzzled.

It is of great importance that you carefully look after your diet and that you take daily warm baths—not only of the face, but of the entire body—to thoroughly cleanse the skin.

At night, after you have thoroughly washed and dried your face, apply an ointment composed of equal parts of salicylic acid and lard or vasoline. Thoroughly massage together. Wash this off in the morning with hot water and pure soap.
